

Salesforce Developer (M/F)

Location: Turin

Main purpose of job

In an innovative and continuously evolving context such as **Eutelsat**, we are looking for a **Salesforce Developer** to be included in the software development team.

We are a unique company in Turin: **Skylogic is 100% Eutelsat**, a **Multinational Service Provider** and **leading satellite operator** in Europe, the Middle East and Africa.

We provide satellite communication for 40 years for video, data and broadband applications.

For further information, please visit our website www.eutelsat.com

The scope is an IT platform that provides Eutelsat and its partners (wholesalers and retailers) to sell and manage satellite Internet connectivity services in Europe and Africa.

The IT platform is mainly installed on Salesforce (Sales, Services, Marketing, Pardot, Community), Zuora (invoicing, payment), SAP S / 4HANA (logistics, finance) and integrated with the baseband systems through an OSS developed by Eutelsat (developed mainly in Java).

Responsibilities:

- **Configuration** and **development** of functionalities on the Salesforce platform
- Active participation in defining specifications and designing
- Test participation
- **Bug-fixing** activities on the Salesforce platform

Requirements:

- Analysis and technical design of solutions on the Salesforce platform. (two years of experience).
- Knowledge of tools and techniques for development through **Apex**, **Visualforce** and related technologies
- Nice to have Salesforce certification especially **DEV** and **ADM**
- Nice to have at least one programming language. Object-oriented something such as Java and C # or others.
- Good knowledge of English
- Knowledge in telecommunications is a significant plus
- Knowledge of **Zuora** is a remarkable plus
- Knowledge of Jira and Agile methodology is a plus
- ITIL knowledge is a plus

Type of contract: permanent contract.

Working time: Full-time
