

Service Transition Specialist

Location: Turin

We are looking for people passionate for the **new technologies** and interested in **technical project** coordination and **quality assurance** activities.

Skylogic is part of Eutelsat Group. Our mission is to promote satellite services for TV broadcasting, broadband data services and maritime connectivity. Thanks to its strategic position, the Skylogic platform has consolidated Eutelsat's standing especially in the Mediterranean, Africa and the Middle East.

For further information, please visit our website www.eutelsat.com

Responsibilities:

- **Project Management** of activities related both to application development and ground segment infrastructure integration (Ensure accurate project planning, respect of project milestones, appropriate production of project documentation, correct escalation levels to the Team Leader and/or Program Manager)
- Coordinate and support **Quality Assurance** activities (prepare test plans, execute E2E tests, track errors and bugs, define test KPIs and prepare test reports)
- Support feasibility requests and coordinate change requests, ensuring complete requirements gathering and timely progress of activities.
- Support adoption and control of Change Management process, performing periodic internal auditing of RFC, reporting nonconformities, helping colleagues with process and tools understanding, proposing process/tools optimizations and improvements.

Requirements:

- Graduate degree in **Engineering of Telecommunication, Computer Science** (and/or related fields) or **Management Engineering** with a telecommunication background.
- **3+ years of experience as Project Manager in both Agile and Waterfall methodologies** (Project Management certifications a plus).
- Previous experience in **Application Development** and/or Infrastructure Integration Projects
- Previous experience with **Quality Assurance** activities (ISTQB or any other testing certification a plus).
- Previous experience with **Jira** a plus
- Fluency in both Italian and English (French a plus).
- Excellent organizational and planning skills.
- Ability to effectively coordinate multiple, concurrent activities, while understanding and managing dependencies and risks.

Skylogic
